Daniel J. Munoz, Ph.D., Psychologist, Supervisor

New Client Questionnaire

Please complete and return *before* your scheduled appointment. This questionnaire provides historical information to assist me in a thorough evaluation or consultation. I see children of all ages with differing problems, so some questions may be irrelevant to your child. You may ignore questions that do not apply. This information is confidential and will be released only with a signed release of information, to satisfy health insurance requirements (if you use health insurance), or in situations in which the law makes exceptions to confidentiality. Thank you!
